PROJECTS

Food order application

📍 Amsterdam, Netherlands

My GitHub (Team Project)
Food ordering platform built with MERN stack (MongoDB | Express | React | Node.js)

- Browse, order, and track orders in real-time
- User authentication with JWT
- Easy menu management
- Responsive and user-friendly UI

Cocktail explorer

📍 Amsterdam, Netherlands

My GitHub
Modern cocktail app built with TypeScript

- Search for cocktails by name
- View random cocktail suggestions
- Detailed recipe information including: Ingredients and measurements Preparation instructions Glass type Cocktail image

RELEVANT EXPERIENCE

Full Stack Web Developer

HackYourFuture

📅 2024 - 2025   📍 Amsterdam, Netherlands

- **Contributed to multiple agile team projects** to design and develop full-stack web applications while adhering to industry best practices.
- **Developed and deployed applications** using JavaScript, React, Node.js, Express, and MongoDB, while implementing unit and integration tests with jest and building REST APIs to enhance both frontend and backend development skills.
- **Gained hands-on experience with Git and GitHub**, actively participating in **code reviews** and collaborating with developers and mentors.
- **Furthered problem-solving skills** through debugging, code reviews, and pair programming.
- **Focused on writing clean, maintainable, and modular code** through practical, real-world development projects.

IT Support Technician

Mahan Air

📅 2017 - 2018   📍 Tehran, Iran

- **System Setup and Maintenance:** Directed system setup and routine maintenance to ensure stability across airline IT infrastructure.
- **Hardware and Software Troubleshooting:** Identifying, diagnosing, and resolving issues with hardware components, operating systems, and software applications.
- **Upgrade Systems:** Implementing hardware and software upgrades to enhance system functionality, security, and efficiency.

PROFILE

I'm a full-stack developer who enjoys building web applications that solve real problems. I'm passionate about writing clean, reliable code, and I love the challenge of learning new technologies and improving a little every day. Currently, I'm expanding my skills with **Next.js** and planning to learn **Python** to strengthen my backend and scripting capabilities. I'm excited to be part of a collaborative, growth-minded team where I can contribute and keep creating meaningful, user-focused solutions.

EDUCATION

Full-stack Web development

HackYourFuture

📅 2024 - 2025   📍 Amsterdam, Netherlands

Bachelor - Computer Software Engineering

Azad University of Tehran

📅 2010 - 2014   📍 Tehran, Iran

SKILLS

JavaScript	React	Typescript
NodeJS	Express-JS	RESTful APIs
MySQL	MongoDB	HTML	CSS
Jest	Postman	Chrome DevTools
Git	Communication	Accountability
Teamwork	Growth Mindset	

LANGUAGES

English	Professional Working Proficiency
Dutch	Limited Work Proficiency
